Orders & Laws

Thüringer Higher Education Act (ThürHG) Immatrikulationsordnung

Examination and study regulations

The general framework and regulations of the degree programme as well as the legal framework are regulated in the examination and study regulations. In the study regulations you will find, among other things, information on the start of the degree programme, the standard period of study, the structure of the degree programme, the description of the study objectives or the admission requirements for individual courses.

The examination and study regulations are divided into two parts: The General Regulations (PStO-AB), which apply to all degree programmes, and the Special Regulations (PStO-BB), which apply to a specific degree programme.

Study programme	PStO-AB	PStO-BB (Bachelor)	PStO-BB (Master)
Biomedical Engineering	2019	2021	2021
Computer Science		2021	2021
Computer Engineering		2021	2021
Research in Computer & Systems Engineering		– –	2021
Engineering Cybernetics and Systems Theory		2021	2021

On the university website and on the intranet you can also find other useful information about your degree programme, such as the module plan or the elective catalogue, as well as forms.
