Soft skills

Some degree programmes include Technical English, Fundamentals of Business Administration or a general course in soft skills. You are free to choose which modules you would like to take. You can also choose a combination. The only important thing is that you end up with at least the required total number of credit points from all the modules you have chosen.

BWL

The following business administration modules can be credited as soft skills:

Module	Abbreviation	Module description	Dates	Scope of services
